- The amount of your tax liability (not including tax on lump-sum distributions and alternative minimum tax) less credits (including the withholding credit) but not including estimated tax payments for either 2000 or 2001 was less than \$200 (or less than \$100 if married filing a separate return); or
- Your 2000 return was for a full 12 months (or would have been if you were required to file) and you did not have any tax liability on that return; or
- The amount of your withholding plus your estimated tax payments, if **paid in the required installments**, is at least 80% of the tax shown on your 2001 return or 100% of the tax shown on your 2000 return AND you are not using the annualized income installment method.

# Part III Annualized Income Installment Method Schedule.

Use this schedule ONLY IF you earned taxable income at an UNEVEN RATE during 2001 (See Example A). If you earned your income at approximately the same rate each month (See Example B), then you should not complete this schedule. If you choose to figure the penalty, see the instructions for Worksheet II — Regular Method to Figure Your Underpayment and Penalty, on page 3 of the instructions.

**Example A:** If you were a commissioned salesperson who earned no income during the first three months of the year, earned most of your income during the following six months, and earned very little during the last three months, you should complete this schedule. You may be able to benefit by using the annualized income installment method. The required installment of estimated tax figured using the annualized method may be less than your required installment figured using the equal installment method.

**Example B:** If you worked all year and earned a monthly salary that did not change much during the year, you should not complete this schedule.

**Note:** To complete this schedule correctly, you must first complete Side 1, Part II, line 1 through line 6.

Estates and trusts, **do not** use the period ending dates shown to the right.

# Instructions for Form FTB 5805

## Underpayment of Estimated Tax by Individuals and Fiduciaries

### General Information

#### A Purpose

Use form FTB 5805 to see if you owe a penalty for underpaying your estimated tax and, if you do, to figure the amount of the penalty.

#### B Who Must File

Generally, you do not have to complete this form. The Franchise Tax Board (FTB) can figure the amount of any penalty for you and send you a bill after you have filed your return. If the FTB figures your penalty and sends you a bill, you must pay the penalty within 15 days of the billing to avoid additional interest charges.

**Important:** If you answered "Yes" to any of the questions in Part I (estates and trusts, see General Information E), you must complete this form and attach it to the **front** of your return.

#### C Waiver of the Penalty

You may request a waiver of the penalty if:

- You underpaid an estimated tax installment due to a casualty, disaster, or other unusual circumstance and it would be inequitable to impose the penalty; or
- You retired after age 62 or became disabled in 2000 or 2001 and your underpayment was due to reasonable cause.

To request a waiver:

- Check "Yes" on form FTB 5805, Part I, Question 1, and in the space provided, explain why you are requesting a waiver of the estimate penalty. If you need additional space, attach a statement;
- Complete form FTB 5805 through Part II, line 12 (Worksheet II, line 13 if you use the regular method) without regard to the waiver. Write the amount you want waived in parentheses on the dotted line next to Part II, line 13 (Worksheet II, line 14 if you use the regular method). Subtract this amount from the total penalty you figured without regard to the waiver, and enter the result on Part II, line 13 (Worksheet II, line 14 if you use the regular method);
- Fill in the circle on Form 540, line 68; Form 540A, line 40; Long Form 540NR, line 77; or Form 541, line 39; and
- Attach form FTB 5805 to the front of your return on top of any check, money order, Form W-2, Form 1099, or other special documentation.

#### D Annualized Income Installment Method

If your income varied during the year and you use the annualized income installment method to determine your estimate payment requirements, you must complete form FTB 5805, including Side 2. Attach it to the front of your return on top of any check, money order, Form W-2, Form 1099, or other special documentation. Also fill in the circle on Form 540, line 68; Form 540A, line 40; Long Form 540NR, line 77; or Form 541, line 39 for the underpayment of estimated tax.

#### E Estates and Trusts

Estates and trusts are required to make quarterly estimated tax payments. Estates and grantor trusts, which receive the residue of the decedent's estate, are required to make estimated income tax payments for any year ending two or more years after the date of the decedent's death. If you answered "Yes" to Question 4, complete Part I **only** and attach form FTB 5805 to the front of your return.

**Note:** Exempt trusts should use form FTB 5806, Underpayment of Estimated Tax by Corporations.

#### F Nonresidents and New Residents

The penalty for the underpayment of estimated tax applies to nonresidents and new residents. See the conditions listed in the box labeled "Important" on Side 1 of form FTB 5805.

#### G Farmers and Fishermen

You are considered a farmer or fisherman if at least two-thirds (2/3) of your annual gross income for 2000 or 2001 is from farming or fishing. Farmers and fishermen are required to make one estimate payment. For calendar year taxpayers, the due date is January 15, 2002. If you file Form 540, Long Form 540NR, or Form 541 and pay the entire tax due by March 1, 2002, you do not owe a penalty for underpaying estimated tax. Use form FTB 5805F, Underpayment of Estimated Tax by Farmers and Fishermen.

#### H Due Dates for Estimated Tax Installments

If you are a calendar year taxpayer, the estimated tax installment due dates for 2001 were:

- First quarter — April 15, 2001
- Second quarter — June 15, 2001
- Third quarter — September 15, 2001
- Fourth quarter — January 15, 2002

Fiscal-year filers must pay estimated tax installments on the 15th day of the 4th, 6th, and 9th months of their fiscal year, and the 1st month of the following fiscal year.

The penalty is figured separately for each due date. Therefore, you may owe a penalty for an earlier installment due date, even if you pay enough tax later to make up the underpayment.

If a due date falls on a Saturday, Sunday, or legal holiday, use the next business day for the due date. For example, since the September 15, 2001 due date for calendar year taxpayers falls on a Saturday, any payments received on the following business day, September 17, 2001, will be credited as having been paid on September 15, 2001.

#### I Filing an Early Return in Place of the 4th Installment

If you file your 2001 tax return by February 1, 2002, and pay the entire balance due, you do not have to make your last estimate payment. Fiscal-year filers must file their return and pay their tax

before the first day of the 2nd month after the end of their taxable year.

#### J Amended Return

If you file an amended return:

- On or before the due date of your original return, use the tax, credit, and other amounts shown on your amended return to figure your penalty for underpayment of estimated tax.
- After the due date of the original return, you must use the amounts shown on the original return to figure the penalty.

#### K Penalty Rates

The rates used to determine the amount of your penalty are established at various dates throughout the year. If an installment of estimated tax for any quarter remained unpaid or underpaid for more than one rate period, the penalty for that underpayment will be figured using more than one rate when applicable.

The following rates apply to the 2001 computation period:

- 9% 4-15-01 through 12-31-01
- 7% 1-01-02 through 6-30-02

Fiscal-year filers: the rates for the periods 7/1/02 through 12/31/02 and 1/1/03 through 6/30/03 will be determined by the FTB in March 2002 and September 2002, respectively.

Call the FTB's automated toll-free phone service to get updated penalty rates. Call the number below, select personal income tax information, follow the recorded instructions, and enter code number **403** when instructed.

The automated toll-free phone service is available in English and Spanish to callers with touch-tone telephones 24 hours a day, seven days a week.

From outside the United States, call (not toll free) ..... (916) 845-6600

### Specific Line Instructions

#### Part II — Computing the Required Annual Payment

Use this part to figure the amount of estimated tax that you were required to pay.

Certain high-income taxpayers are required to use 105% (instead of 100%) of the tax shown on their previous year's return in the computation of the required annual payment. See the instructions for line 5.

**Line 1** — Enter your tax liability (excluding any tax on lump-sum distributions) from your 2001 Form 540, line 34 less the amount on line 45; Form 540A, line 23 less the amount on line 31; Long Form 540NR, line 43 less the amount on line 54; or Form 541, line 25.

**Line 3** — Enter the amounts from your 2001 Form 540, line 38 and line 41; Form 540A, line 25 and line 27; Long Form 540NR, line 47, line 48, and line 50; or Form 541, line 28.

**Line 5** — Enter your tax liability (excluding any tax on lump-sum distributions) from your 2000

Form 540, line 34 less the amount on line 45;  
Form 540A, line 23 less the amount on line 31;  
Long Form 540NR, line 43 less the amount on  
line 54; or Form 541, line 25.

If the adjusted gross income shown on your 2000  
California tax return is more than \$150,000, or  
more than \$75,000 if married filing separate, then  
enter 105% (1.05) of the tax liability from your  
2000 return on line 5.

If you did not file a return for 2000, or if your  
2000 tax year was less than 12 months, do not  
complete line 5. Instead, enter the amount from  
line 2 on line 6.

### Short Method

You may use the short method only if you are a  
calendar year taxpayer and:

1. You made no estimated tax payments or your  
only payments were California income tax  
withheld; or
2. You paid estimated tax in four equal amounts  
on the due dates.

**Note:** If any payment was made earlier than the  
due date, you may use the short method, but  
using it may cause you to pay a larger penalty  
than using the regular method. If the payment  
was only a few days early, the difference is likely  
to be small.

You may **not** use the short method if either of the  
following apply:

1. You made any estimated tax payment late; or
2. You answered "Yes" to Part I, Question 3.

If you can use the short method, complete Part II,  
line 1 through line 10 to figure your total  
underpayment for the year, and line 11 through  
line 13 to figure the penalty.

## Part III – Annualized Income Installment Method

If your income varied during the year, you may be  
able to lower or eliminate the amount of one or  
more required installments by using the  
annualized income installment method. Use  
Part III to figure the required installment amount  
to enter on Worksheet II – Regular Method to  
Figure Your Underpayment and Penalty, line 1  
(page 4).

Complete line 1 through line 16 to figure your  
current year tax, per quarter, based on your  
income as you earned it. Then, complete line 17  
through line 23 to figure your required installment  
for each quarter. (The total of all amounts entered  
on line 23 should equal the amount from Part II,  
line 6.)

If you use the annualized income installment  
method for any payment due date, you must use  
it for all payment due dates. To figure the amount  
of each required installment, Part III automatically

selects the smaller of the annualized income  
installment or the regular installment (increased  
by the amount saved by using the annualized  
income installment method in figuring earlier  
installments).

**Note:** If you are filing Long Form 540NR, see  
Long Form 540NR Instructions for Part III at the  
end of this section.

**Line 1** – Figure your total income minus your  
adjustments to income for each period from  
01/01 to the ending date of each period (the  
amounts are cumulative). Include your share of  
partnership or S corporation income or loss items  
for the period.

**Line 2 – Form 541 filers.** Do not use amounts  
shown in column (a) through column (d).  
Instead, use 6, 3, 1.71429, and 1.09091,  
respectively, as the annualization amounts.

**Line 6** – Multiply line 4 by line 5 and enter the  
result on line 6. Your annualized itemized  
deductions are limited if, in any quarter, line 3 is  
greater than:

- \$261,664 (married filing joint or qualifying  
widow(er)); or
- \$130,831 (single or married filing separate);  
or
- \$196,248 (head of household).

Use the following worksheet to figure the amount  
to enter on line 6 for each period line 3 reaches  
the above amounts.

- 1 Enter the amount from  
Part III, line 4 ..... 1 \_\_\_\_\_
  - 2 Using California amounts, add  
the amounts on federal  
Schedule A, line 4, line 13, and  
line 19 plus any gambling  
losses included on line 27 ..... 2 \_\_\_\_\_
  - 3 Subtract line 2 from line 1 ..... 3 \_\_\_\_\_
  - 4 Enter the number from  
Part III, line 5 ..... 4 \_\_\_\_\_
  - 5 Multiply the amount on line 1  
by line 4 ..... 5 \_\_\_\_\_
- Note:** If the amount on line 3  
is zero, stop here and enter the  
amount from line 5 on Part III,  
line 6.
- 6 Multiply the amount on line 3  
by the number on line 4 ..... 6 \_\_\_\_\_
  - 7 Multiply the amount on  
line 6 by 80% (.80) ..... 7 \_\_\_\_\_
  - 8 Enter the amount from  
Part III, line 3 ..... 8 \_\_\_\_\_
  - 9 Enter the amount shown  
above for your filing status ..... 9 \_\_\_\_\_
  - 10 Subtract line 9 from line 8 ..... 10 \_\_\_\_\_
  - 11 Multiply the amount on  
line 10 by 6% (.06) ..... 11 \_\_\_\_\_

(worksheet continues at top of next column)

- 12 Enter the smaller of line 7 or  
line 11 ..... 12 \_\_\_\_\_
- 13 Subtract line 12 from line 5.  
Enter the result here and on  
Part III, line 6 ..... 13 \_\_\_\_\_

**Line 7** – Enter the total standard deduction  
allowed for your filing status in each column even  
if you itemized your deductions.

**Line 10 – Form 541 filers.** Figure the tax on the  
amount in each column of line 9 using the tax  
table or tax rate schedule in your tax booklet.  
Also, include any tax from:

- Form FTB 5870A, Tax on Accumulation  
Distribution of Trusts; or
- IRC Section 453A tax.

**Line 11** – If your exemption credits were limited  
by adjusted gross income (AGI), it may be to your  
advantage to make a separate computation for  
each period. If you choose, you may complete the  
exemption credit worksheet in your tax booklet  
for each period.

**Line 13** – Enter the special credits you are  
entitled to because of events that occurred during  
the months shown in the column headings.

**Credit Limitation** – If your special credits were  
limited by tentative minimum tax (TMT), it may be  
to your advantage to make a separate computa-  
tion for each period. If you choose, you may  
complete a separate Schedule P (540 or 541) for  
each period.

### Long Form 540NR Instructions for Part III

Use these instructions only if you are filing Long  
Form 540NR.

**Line 1** – Enter your total adjusted gross income  
(AGI) for each period. Your total AGI is your AGI  
for the period from all sources.

**Line 12** – As a nonresident or part-year resident,  
you must figure your tax based on your total  
income. You then must determine your California  
tax liability by multiplying the tax by the ratio of  
California AGI to total AGI. To do this, complete  
Worksheet I below.

California AGI is all of the income you earned  
while you were a California resident plus any  
income received from sources within California  
while you were a nonresident, less applicable  
income adjustments. For more information, see  
the instructions for Schedule CA (540NR),  
California Adjustments – Nonresidents or Part-  
Year Residents, column E.

**Line 13** – Refigure Long Form 540NR, line 31  
through line 42, plus line 54. Prorate the credits  
on line 31 through line 34 using the ratio from  
Line D of Worksheet I below. Prorate the credit on  
line 54 by following the Long Form 540NR,  
line 54 instructions, using the ratio from Line D of  
Worksheet I below instead of the ratio from Long  
Form 540NR, line 25a.

## Instructions for Worksheet II – Regular Method to Figure Your Underpayment and Penalty

### Part I — Figure Your Underpayment

**Line 1** – Enter in column (a) through column (d) the amount of your required installment. For most taxpayers, this is the amount shown on form FTB 5805, Side 1, Part II, line 6 divided by 4. If you use the annualized income installment method, enter the amounts from form FTB 5805, Side 2, Part III, line 23.

**Line 2** – Enter the estimate payments made by the date at the top of each column.

Include in column (a) any overpayment of tax from your 2000 return that you elected to apply to the 2001 estimated tax.

Divide by 4 the amount you entered on form FTB 5805, Part II, line 3, and enter the result in each column, unless you can show it was withheld otherwise.

**Note:** For withheld California income tax, you are considered to have paid 1/4 of these amounts on each payment due date unless you can show otherwise. If you can show that your California withholding was withheld in uneven amounts, answer “Yes” to Part I, Question 3 and enter the uneven amounts withheld on the lines provided on Part I, Question 3.

If you file your return and pay the tax due by February 1, 2002, enter the amount of tax paid with your return in column (d). In this case, you will not owe a penalty for the estimate payment due by January 15, 2002.

**Line 8** – If line 8 is zero for all payment periods, you do not owe a penalty. But if you checked “Yes” for any question on form FTB 5805, Side 1, Part I, you must file form FTB 5805 with your return.

### Part II — Figure the Penalty

Figure the penalty by applying the appropriate rate against each underpayment shown on line 8. The penalty is figured for the number of days that the underpayment remained unpaid.

The rates are established at various times throughout the year. If an underpayment remained unpaid for more than one rate period, the penalty on that underpayment will be figured using more than one rate period.

Use line 10 and line 12 to figure the number of days the underpayment remained unpaid. Use line 11 and line 13 to figure the actual penalty amount by applying the rate against the underpayment for the number of days it remained unpaid.

Maximum days in a rate period per quarter:

Installment	Days in Rate Period 1	Days in Rate Period 2
1	260	105
2	199	105
3	107	105
4		90

**Payment Application.** Your payments are applied to any underpayment balance on an earlier installment. It does not matter if you designate a payment for a later period.

**Example:** You had an underpayment for the April 15th installment of \$500. The June 15th

installment required a payment of \$1,200. On June 10th, you sent in a payment of \$1,200 to cover the June 15th installment. However, \$500 of this payment is considered to be for the April 15th installment. The penalty for the April 15th installment is figured to June 10th. The amount of the payment to be applied to the June 15th installment is \$700.

**Subsequent Payments.** For purposes of computing the penalty, it may be helpful to make a list of any payments that you made after the timely payments entered in Part I, line 2. If you made no other payments, follow the line-by-line instructions for Part II.

If you made subsequent payments, you may need to make additional computations for the applicable column on the worksheet. However, if the payment reduced the underpayment to zero, there are no further computations to make for that column. In that case, you count the number of days from the installment due date to the date paid.

If a subsequent payment does not reduce the underpayment to zero, you will need to make an additional computation in the column.

- First, count the number of days from the due date to the date paid and use the underpayment amount from Worksheet II, line 8.
- Second, count the number of days from the payment date to the end of the rate period, and subtract the amount of the subsequent payment from the underpayment amount from Worksheet II, line 8.
- Then apply the rate for the applicable period.
